

Canadian Deafblind Association – BC Chapter

Extended Intervention Program

April – May 31, 2020

Objective: To use the activity packages for children and youth with deafblindness to engage in at home. The Intervenors are to take each themed package (submitted weekly) and to modify or adapt it to the abilities of the child/youth they are working with. The activity is to be broken down into appropriate steps for the child/youth with strategies, including supplies needed and communication tools (signs, object cues, picture cues, etc.), that will be presented to the parent. The Intervenor may either support the child in performing the activities in person or virtually.

Each category will include stories, songs, crafts, games, life skills and activities that take into account several aspects: the child's abilities, the child's deafblindness, the child's communication system, supplies easily obtained from within the home, potential life skills to be learned and who will be supporting the child (Intervenor, parent, sibling, etc.).

The weekly categories are as follows:

- Fine Motor Skills
- Sensory Skills
- Life Skills
- Movement/Gross Motor Skills
- Social Emotional Skills

The Intervenor will support the child/youth and their family as best as they can either with direct Intervention or using email, phone, and video-conferencing (Facetime, Zoom, What's App, etc.). Each child receives 20 hours of support, which may be divided as is best for the child, the family and the Intervenor. *The program must end May 31, 2020*, as per direction from MCFD. These hours are to include any preparation time for the activities, as well as any communication time (email, video-conferencing, etc.) with the child and their family.

Many thanks to our team of Intervenors and Deafblind Specialists who dedicated their time to put this program together:
